

# Portable Dental / Medical Chairs

Setting a new world standard in truly portable medical missions gear, the I-TEC PDC is a robust, fully articulating 23 pound dental / medical chair in a package you can comfortably carry on your back. Constructed of anodized aluminum tubing and engineering plastics, the chair sets up in less than two minutes, supports up to 300 lbs., and is exceptionally stable.

## Features

- Adjustable from upright to fully supine position
- Telescoping headrest accomodates children or adults
- Handrails for patient comfort and safety can also be used to carry the chair
- Quick, easy-to-use adjustment mechanisms
- Smooth, durable surfaces allow easy asepsis
- Most accessories conveniently store on the chair for transport
- Front legs have 1.7 inches of height adjustment allowing a slight upward angle of seat surface if desired

# Accessories

## DUC-100 Utility Case

Great for taking tools and supplies along. Tough, double walled plastic case with built-in handle.

### Features:

- Lid opens 180° providing additional workspace
- Attaches to opened chair when used in conjunction with DTK-100 Instrument Tray Kit
- Attaches to folded PDC-200 for convenient transport
- Double latches

*Note: Utility Case will not attach to a **folded** PDC-100 for transport. DTK-100 Instrument Tray Kit is required to attach Utility Case to and **open** PDC.*

## DCK-100 Chair Cushions

Add patient comfort and security with easy-to-attach padded cushions.

### Features:

- Snap on or off the chair in seconds
- Heavy vinyl covers are durable and easy to clean
- Seat cushion has double thickness padding
- Zippered tote bag for convenient transport and storage

*Note: Cushions must be removed before folding chair.*

## DTK-100 Instrument Tray Kit

Attached to handrail to conveniently position instruments and supplies close at hand.

### Features:

- Multiple adjustment options: moves up or down vertical tube, pivots, and slides laterally along handrail
- Can be mounted on left or right side of chair
- Tray has integrated holes for holding dental burrs
- Designed to store conveniently on folded chair for transport

## DBK-100 Backpack Kit

Comfortably carry the PDC to remote locations as a backpack.

Rain Fly keeps the elements out and adds storage.

### Harness Features:

- Backpack harness attaches and detaches in seconds
- Quality materials and think padding
- Waist belt can be used as a patient restraint
- Adjustable to fit most adults
- Sternum strap for added comfort

### Rain Fly Features:

- Four external pockets for carrying supplies
- Loops & rings allow attachment of additional items
- Tucks neatly into integrated pouch for storage
- Constructed of 420 denier polyester with urethane coating

*Note: DUC-100 Utility Case is required for rain fly to fit properly. Backpack Kit cannot be attached to a PDC-100*

## DHC-200 Hardside Shipping Case

Protects from shipping damage and perfect for storage. Highly recommended for airline transportation.

### Features:

- Built-in trolley wheels & handle allow easy rolling on smooth floors
- Lockable latches for added security
- ABS plastic laminated over hardboard construction
- Aluminum edging and plated steel hardware
- Felt Lining
- Fits PDC with or without optional accessories

*Note: Case does not accomodate DCK-100 Chair Cushions.*
