MAR '10 "FLYER"

## Monthly Maverick Update

After adding arches to the flying car's roof, Steve and Barry make some preliminary fabric tests. Meanwhile, Steve Buer installs a radiator up front.

## Watertight Tests

After cutting, bending, and taping the pieces of ABS plastic together, Steve confirmed that the newly designed "test" tank will hold liquid. Jesse drew the plans for two matching aluminum 7 gallon gas tanks that will install behind the passenger seats in the Maverick.

## Board of Directors Meet

(L-R) Dr. Charlie Vittitow, Gene Walrath, Steve B, Steve Saint, Troy Townsend, Marlin Horst, Jesse Saint, and Doug Peters met to review the past and plan for the future during our quarterly Board of Directors meeting.

## Portable Exam Chair

We have added a sliding shelf to our Portable OB-Gyn Exam Chair. The aluminum shelf slides in and out to hold the health care worker's instruments during routine obstetric exams. With removable seat pads, the portable exam chair is lightweight and folds neatly for transport.

## *I-Tec's Training Arm*

Dr. Charlie Vittitow- (Chairman of the Board). Erin Owen- (Director of Communications). Linda Webster- (Board Member). and Lori Bordas- (Director of Partnership Development)

As the training arm for I-Tec's ministry, mPOWER is a not-for-profit organization which is dedicated to coming alongside missions-oriented ministries and local indigenous churches to equip them with training, I-Tec technology, and operational skills to help them more effectively carry out their calling to proclaim the Name of Christ in a self-supporting manner. By using a variety of support modules, mPOWER provides the Christian worker with training and authorization, while partnering the trainer and the trainee with a sending group who prays and finances the endeavor. Based in Louisville, KY, mPOWER was started by Dr. Charlie Vittitow- a member of I-Tec's Board of Directors and a valuable colleague.

### *Steve Saint's Itinerary*

Mar 12- 22 South Korea, Speaking in several cities- 352-465-4545

Apr 11(pm) Lakeland, FL, Victory Church [victorylakeland.org](http://victorylakeland.org) 863-859-6000

Apr 25(am), Dayton, OH, Global Impact Celebration- 937-434-4676

Apr 25(pm), Canton, OH, World Missions Conference- 330-477-6267 x112

## *The Great Opportunity*

"The Great Omission has been a huge, positive eye-opener for our church's missions leaders! They are really excited about changing from the old ways of doing missions. I got in touch with (Dr.) Charlie at mPOWER and am hoping to go on an upcoming trip to learn how to train! Y'all take care and we'll continue to pray for I-tec." Dr. Jeff, Fayetteville, AR 2/11/10

### *Parting Thought*

"People who do not know the Lord ask why we waste our lives as missionaries. They forget that they too are expending their lives... and when the bubble has burst they will have nothing of eternal significance to show for the years they have wasted."

-Nate Saint

**This ministry is possible only through the faithful support of God's people.**

### *Behind the "Seens"*

Last month, bundling was not just a software term. Working in our unheated hangar building required coats, gloves, and the will to work as volunteers Steve Buer and Gene Walrath braved temperatures into the thirties to work on the Maverick.
